

# SEM Performance

Strategic Energy Management (SEM) is a multi-year engagement that activates energy teams in industrial facilities to find and complete energy-saving projects, track energy performance, and engage their peers in saving energy every day.

**2022 Results**  
10/25/21 – 9/25/22

Energy Saved

**839,625 kWh**

Energy Cost Savings

**\$61,628\***

Incentives Earned

**\$35,085**

**Total Program**  
2020 – 2022

**1,565,762 kWh**

**\$109,430**

**\$53,995**

**Lake in the Hills  
SEM Energy Team**

CHAMPION: Tamara Mueller  
TEAM MEMBERS: Kyle Caccamo,  
Mike Nelson, John Caccamo

**ComEd SEM Team**

COACH: Dawn Lesley  
TECH LEAD: Chuck Hanson

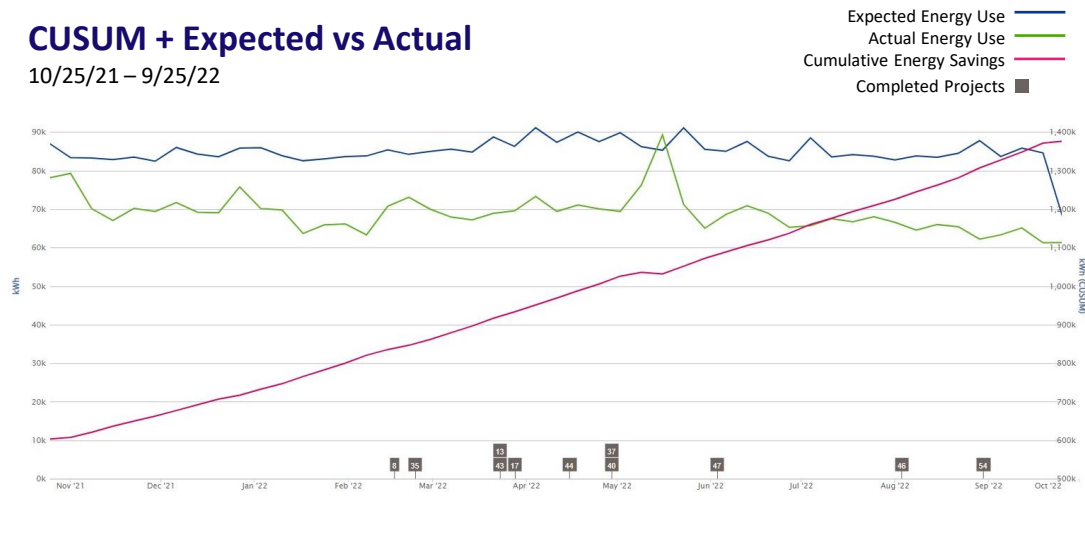

**Facility Info**

PARTICIPANT SINCE: 2020  
LOCATION: 515 Plum St,  
Lake in the Hills, IL 60156

## CUSUM + Expected vs Actual

10/25/21 – 9/25/22

## Emissions Data 2022

Avoided one-year emission equivalencies.

**595**  
CO<sub>2</sub>e

CO<sub>2</sub>e metric tons of emissions avoided on completed projects

**75**  
Homes

CO<sub>2</sub>e emissions from home energy use

**128**  
Vehicles

GHG emissions from passenger vehicles driven

**704**  
Acres

Carbon sequestered from U.S. forests
